

## RFID Tag for Library Management RFID Tag

RFID Documents / Book Tag

ISO15693 13.56 MHz I CODE SLIX HF

## Product Description

|                     |                                                                                                                                                                                                                         |                                             |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------|
| 1.Material          | Surface material                                                                                                                                                                                                        | Coated Paper                                |
|                     | Antenna material                                                                                                                                                                                                        | Copper/Aluminium foil                       |
| 2.Chip              | HF:I-CODE SLI-X                                                                                                                                                                                                         |                                             |
| 3.RFID Parameters   | Frequency                                                                                                                                                                                                               | HF: 13.56MHz                                |
|                     | Protocol                                                                                                                                                                                                                | ISO15693                                    |
|                     | Operation distance                                                                                                                                                                                                      | HF: 1-70cm<br>depends on the reading device |
| 4.Demension         | 50*50mm                                                                                                                                                                                                                 |                                             |
| 5.Customized Crafts | 1. Special function option Anti-metal layer<br>2. Custom logos/artworks printing/ Laser engrave.<br>3. ID Number Printing Jet dot printing<br>4. URL, text, number etc encoding.<br>5. Printing, barcode, QR code, etc. |                                             |

## Physical Parameters

Standard size 50\*50mm
